

CERTIFICATE OF COMPLIANCE

Certificate Number 20130211-E211395
Report Reference E211395-20100113
Issue Date 2013-FEBRUARY-11

Issued to: MAXIM INTEGRATED PRODUCTS
SUITE 200
8516 ANDERSON MILL RD
AUSTIN TX 78729

**This is to certify that
representative samples of**

COMPONENT - PROTECTORS, LOW-VOLTAGE SOLID-
STATE OVERCURRENT

Low voltage solid-state overcurrent protectors, Models
MAX14523AATA+, MAX14523BATA+, and
MAX14523BATA/V+T.

Have been investigated by UL in accordance with the
Standard(s) indicated on this Certificate.

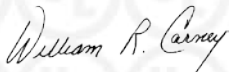

Standard(s) for Safety: UL 2367 – Standard for Solid State Overcurrent Protectors
Additional Information: See the UL Online Certifications Directory at
www.ul.com/database for additional information

Only those products bearing the UL Recognized Component Mark should be considered as being covered by UL's Recognition and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark: , may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual recognitions.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Recognized Component Mark on the product.
